

Welding 60 mil HDPE at 30 feet per minute? This changes everything.

Introducing the Pro-Wedge 3XL by

Model 500-0100/3XL

Most common spare parts are interchangeable with a standard XL or **Wedge-it Series 2000** welder including the following:

- Gears & Sprockets
- Shafts and Bearings
- Nip Rollers
- Temperature Controller
- Motor Control Board
- Solid State Relay
- Speed Readout
- Etc....

The wedge assembly can be **removed in 30 seconds** by simply unplugging the external heater and thermocouple plug-in wire connector, removing two shoulder bolts, and opening up the frames as shown above. Just lift the wedge assembly and pull it out!

Unique bolt-together, extended length wedge design for efficient heat transfer, precise temperature control, and long heater life.

3XL
