

V-Plate

For non-destructive vacuum testing of welded seams.

The latest in vacuum testing technology

Self contained version available in sizes from 10" X 24" to 10" X 48".

Exclusive control box design to turn vacuum on and off. Sturdy PVC block protects gauge.

The revolutionary V-Plate is.....

- Light:** Making it easy to move from one test to the next with very little effort.
- Flexible:** Easily creating an initial vacuum seal over uneven areas and wrinkles.
- Low Profile:** Preventing liner from pulling up into the chamber, damaging the material.
- Economical:** Low cost replacement sight plates available with pre-attached foam gaskets.
- Versatile:** The V-Plate can be used with a vacuum pump or an air compressor and can be ordered in just about any size or shape to fit your testing application. Contact us for information on available sizes and shapes.
