

Pro-Cutter

Easy to use, high quality tool for effortless cutting of Geosynthetic materials. Great for cutting geocomposites and the toughest, dirtiest, wrinkled geomembrane tie-in seams!

Pro-Cutter PC-0100 Features

- Durable. Uses off the shelf Dewalt grinder!
- Lightweight. Entire unit only weighs 16 Lbs!
- Portable. 110V or 220V operation. Folds for easy storage
- Safe. Prevents knee and back injuries as well as utility knife blade cuts!
- Simple and easy to operate. Cuts through Geocomposites, Geonet, GCL, or multiple layers of Geomembrane like a hot knife through butter!
