

# **V-Plate Testing System**

## **For non-destructive vacuum testing of welded seams**

Contact us for information on available sizes and shapes.

### **V-Plate Features**

- Lightweight. Easy to move from one test to the next with very little effort
- Flexible. Easy to create initial vacuum seal over uneven areas and wrinkles
- Low Profile. Prevents liner from pulling up into the chamber
- Economical. Low cost replacement sight plates available with pre-attached foam gaskets
- Versatile. The V-Plate can be used with a vacuum pump or an air compressor and can be ordered in just about any size or shape to fit your testing application
