

# **Pro-Wedge XL**

The PRO-Wedge XL Wedge Welder, manufactured by DEMTECH Services, Inc., is the new standard of the industry wedge welder for production welding of thicker HDPE geomembrane seams. Drawing from many years of experience in the plastic welding industry, we've designed features and functions into its design to satisfy the needs of the most demanding welding technicians on the most demanding job sites.

## **Here are just a few of the amazing features on the new Pro-Wedge XL:**

- Wedge assembly can be removed in 30 seconds! Minimizes downtime
- External plug-in connector for heaters and thermocouple
- Spring loaded retaining disc protects heater/T.C. wires from wear
- Hinged control panel for instant access to electrical components
- Automatic safety switch shuts off power to control box when cover is opened
- Auto-switching voltage selection relay for 110/220V operation
- Many other time and money-saving features. Too many to list!
